

HE 155mm

High Explosive 155mm Ammunition

SELECTED PROJECTS EDIRPA 2024

CALL TITLE:

EDF-EDIRPA-2024-FNLC-AMMO

MAXIMUM EU CONTRIBUTION:

60,000,000 €

SHORT DESCRIPTION OF THE PROJECT:

The project supports the common procurement of high explosive 155 mm artillery ammunition, which are currently identified as operational shortfalls and most needed capability in many Member States. The common procurement aims to address the replenishment of stockpiles of one of the most requested types of artillery ammunition. The project will not only provide the needed quantities, but also help increase the related production capacities.
